

**Bikes, parties and experiences:
Countdown to the FSA Bike Festival in Riva del Garda**

New formats, legendary parties and a more interesting expo area make the start of the season at Lake Garda more interactive than ever.

Riva del Garda, April 7, 2026. The countdown is on: the Bike Festival enters a key phase with the opening of the expo registration for visitors – bringing innovative formats, new experiences and even more community spirit to Garda Trentino this year. From night-time rides and interactive voting to legendary parties, the festival is expanding its offering far beyond trails and exhibitions and turning guests into active participants.

The stage is set for innovation and community

Entry to the expanded Expo Area will remain free in 2026 – registration and an interactive map are available to guests [here](#). New this year: with the **'Biker's Choice'**, visitors will decide for the first time which stands to impress them most. Favourites will be voted for on-site in four categories:

- **Best Stand** – design, energy and first impression
- **Best Crew** – passion, approachability and atmosphere
- **Experience Highlight** – tests, challenges and memorable moments
- **Must-have Gadget** – products you just have to take home

The awards ceremony will take place on Sunday, 3 May, making the community's opinion more visible than ever.

Trails by Night: The EPICNIGHT

With the EPICNIGHT by EPICDAYS.CC, the Bike Festival gains a new highlight that breaks with traditional formats: a night-time, non-competitive ride for gravel, MTB and e-MTB enthusiasts. The ride kicks off on 30 April at sunset in Torbole. From there, the tour winds through the Sarca Valley, accompanied only by your own light, the silence of the night and a shared sense of flow. Two routes (approx. 40 km and 80 km) offer suitable options for different levels.

There's no podium at the finish line, but a lakeside party – with a DJ set and festival vibes to kick off a whole weekend of biking adventures and festive atmosphere.

Bike action up close

At the Skill Park Busatte in Torbole, riders of all levels can improve their technique – for example, at the MTB School “Ride Like a Pro!”, which combines riding technique, confidence and flow. The SICK! Show powered by Bikeflip provides extra action as pro riders showcase spectacular tricks, creative lines and interactive challenges. Here, technique, style and entertainment merge into a thrilling experience for everyone who wants not just to ride, but also to party.

After the trail comes the party

Beyond the trails, the Bike Festival 2026 also reveals its fun and lively side. In the Food Area, each stall invites you to discover a different local specialty and experience the culinary delights of Garda Trentino.

On Friday, the Red Bull Summer Vibes Party will get the lakeside buzzing, whilst on Saturday the new Warm-up Party by FENZ will start at 6 pm, before the legendary Bike Festival Party at Spiaggia degli Olivi. Here, sport, enjoyment and music blend into a seamless festival experience – from the first ride to the last dance.
